18
19     words = text.split()
20
21     for word in words:
22         if word in positive:
```

Input

```
3
This product is Excellent And Awesome!
Bad quality and slow delivery.
Good product but bad packing.
```

Output

```
Enter number of reviews: Enter
review: Positive Count: 2
Negative Count: 0
Sentiment: Positive
Enter review: Positive Count: 0
Negative Count: 2
```
